

SCRAPBOOKING

A scrapbook is simply a decorated photo album—but it's different from a photo album because it preserves something more than just the photos. A scrapbook includes journaling (telling the story behind the photos) as well as memorabilia (tickets, certificates, letters, scorecards, autographs, menus, invitations etc.).

Year 9 is a great year with many things happening at school and I am sure that it will be a big year out of school as well. The scrapbook which you will produce as part of your curriculum is an exciting and fun way to document the events in your year that are important to you. We will begin with January and work our way through the months as they come and go. To make your scrapbook a worthwhile keepsake you will need to put the effort in and it can have your own personal style stamped on it.

Your journal will play an important role in helping you to remember important details that occur throughout the month as you will be required to write once a week. At the end of the month this information will assist you in making your monthly page. It is a good idea to keep anything which will brighten up your page and add to the decoration of it. Photos are always good and we will try to take photos of various happenings in the school. You might go to a big sporting event, movie or party for example and you can include the ticket or invitation. There is no limit to your imagination!!!!!!

Each month you will need to include:

- ? School activities and out of school events
- ? 3 events that happened in the world
- ? 3 events that happened in Australia
- ? 3 events in the South East.

Choose one of these that you feel passionate about and write a half page reflection about this event.

Each month must be at least two A4 size pages.

Have fun, take pride in your work, be creative, enjoy what you do and most of all celebrate what life has to offer.
